

Sonatype Lifecycle/Firewall Advanced Deployment

A structured, expert-led engagement that supports the deployment of Sonatype Lifecycle and Repository Firewall. This service delivers a configured Lifecycle and Repository Firewall environment with documented results and a clear path to long-term ownership.

Key outcomes and benefits

- ✓ **Faster time-to-value:** Accelerate deployment through a structured approach.
- ✓ **Reduced risk:** Minimize configuration issues with planned execution.
- ✓ **Operational readiness:** Deliver configured environments and documentation for long-term ownership.
- ✓ **Integration confidence:** Review integrations and provide recommendations.

About Professional Services

Sonatype Professional Services deliver expert-led engagements that accelerate adoption, reduce risk, and drive measurable outcomes.

What you can expect

- Structured, outcome-driven delivery
- Expert guidance throughout
- Documented results
- Clear handoff for ownership

ESSENTIAL

Single environment, standard install

STANDARD

Multi-environment, HA, and integrations

ENTERPRISE

DR/failover, and advanced scaling

Sonatype will help identify the right tier for you using our readiness checklist.

Who should engage?

Organizations looking to:

- Deploy LC/FW in a structured, scalable way.
- Standardize policy configuration and governance.
- Establish a foundation for long-term ownership.

Recommended roles:

- System Administrators
- DevOps Engineers
- Architects
- Technical Program Managers

Related products

Sonatype Lifecycle/Firewall Advanced Deployment

Advanced Deployment service covers new Sonatype Lifecycle and Repository Firewall deployments only. Sonatype experts provide architectural guidance and policy enforcement considerations while the customer manages infrastructure. Our experts configure and validate Sonatype products to support effective operation within your governance and security environment.

We don't just deploy Lifecycle and Firewall, we help establish long-term ownership!

PHASE I

Deployment Discovery

- Review environment and requirements
- Define scope and objectives
- Align stakeholders

PHASE II

Assessment & Planning

- Evaluate infrastructure and dependencies
- Define deployment approach
- Develop deployment plan

PHASE III

Execution & Configuration

- Deploy Lifecycle and Repository Firewall
- Configure key capabilities
- Review integrations and provide recommendations

PHASE IV

Validation & Cutover

- Review functionality and configuration
- Document deployment and continuity considerations
- Complete transition to customer ownership

Delivery Timeline

- ✓ **Standard duration:** typically 1–4 weeks
- ✓ **Delivery model:** virtual by default; limited on-site available if scheduled in advance
- ✓ **Planning:** confirmed during discovery with milestone checkpoints

Success Criteria

- Lifecycle and Repository Firewall deployment completed
- Configuration and integration results documented
- Integrations reviewed with recommendations
- Continuity considerations documented
- Handoff delivered with deployment documentation

Customer Responsibilities

- Provide and maintain required infrastructure
- Grant necessary access for deployment activities
- Assign a project owner and ensure participation
- Own operations after handoff

Sonatype is the software supply chain management company. We enable organizations to innovate faster in a highly competitive market. Our industry-leading platform empowers engineers to develop software fearlessly and focus on building products that power businesses. Sonatype researchers have analyzed more than 120 million open source components – 40x more than its competitors – and the Sonatype platform has automatically blocked over 115,000 malicious components from attacking software development pipelines. Enabling high-quality, secure software helps organizations meet their business needs and those of their customers and partners. More than 2,000 organizations, including 70% of the Fortune 100 and 15 million software developers, rely on our tools and guidance to be ambitious, move fast and do it securely.
