

Sonatype Repo Cloud Migration Services

A structured, expert-led engagement that supports migration from self-hosted Nexus Repository or JFrog Artifactory to Sonatype Repo Cloud. This service guides a smooth transition to a fully managed cloud platform, delivering documented results and a clear path to long-term ownership.

Key outcomes and benefits

- ✓ **Faster time-to-value:** Accelerate migration to Repo Cloud through a structured approach.
- ✓ **Reduced risk:** Minimize downtime and configuration issues with planned execution.
- ✓ **Operational readiness:** Deliver configured environments and documentation for long-term ownership.
- ✓ **Integration confidence:** Review integrations and align them to the target cloud environment.

About Professional Services

Sonatype Professional Services deliver expert-led engagements that accelerate adoption, reduce risk, and drive measurable outcomes.

What you can expect

- Structured, outcome-driven delivery
- Expert guidance throughout
- Documented results
- Clear handoff for ownership

ESSENTIAL

Self-hosted, Repo or Artifactory (up to 20 TB)

STANDARD

Self-hosted or SaaS, Artifactory (20-35 TB)

ENTERPRISE

Large and complex, Repo and Artifactory

Sonatype will help identify the right tier for you using our readiness checklist.

Who should engage?

Organizations looking to:

- Migrate from self-hosted repositories to Sonatype Repo Cloud.
- Consolidate multiple repositories into a single environment.
- Standardize and modernize repository deployments.

Recommended roles:

- System Administrators
- DevOps Engineers
- Architects
- Technical Program Managers

Sonatype Repo Cloud Migration Services

Migration Services support the transition from self-hosted Nexus Repository or JFrog Artifactory to Sonatype Repo Cloud. Sonatype provides structured guidance for migration planning, execution, and configuration alignment while the customer manages infrastructure. The result is a smooth transition with documented outcomes and a clear path to long-term ownership in Sonatype Repo Cloud.

We don't just move your data, we help establish long-term ownership in Sonatype Repo Cloud!

PHASE I

Migration Discovery

- Review environment and integrations
- Define scope, approach, and timeline
- Align stakeholders

PHASE II

Assessment & Planning

- Evaluate configurations and dependencies
- Define migration approach and checkpoints
- Develop migration plan

PHASE III

Execution & Configuration

- Migrate repositories to Repo Cloud
- Align configurations with the cloud environment
- Review integrations and provide recommendations

PHASE IV

Validation & Cutover

- Review data, access, and repository functionality
- Document findings and readiness
- Complete transition to customer ownership

Delivery Timeline

- ✓ **Standard duration:** typically 4–8 weeks (based on scope and data volume)
- ✓ **Delivery model:** virtual by default; on-site not applicable
- ✓ **Planning:** confirmed during discovery with milestone checkpoints

Success Criteria

- Repositories and configurations migrated to Sonatype Repo Cloud
- Data and configuration results documented
- Integrations reviewed with recommendations
- Transition to customer ownership completed
- Handoff delivered with migration documentation

Customer Responsibilities

- Provide repository details and required migration inputs
- Grant necessary access for migration activities
- Assign a project owner and ensure participation
- Own operations after handoff

Sonatype is the software supply chain management company. We enable organizations to innovate faster in a highly competitive market. Our industry-leading platform empowers engineers to develop software fearlessly and focus on building products that power businesses. Sonatype researchers have analyzed more than 120 million open source components – 40x more than its competitors – and the Sonatype platform has automatically blocked over 115,000 malicious components from attacking software development pipelines. Enabling high-quality, secure software helps organizations meet their business needs and those of their customers and partners. More than 2,000 organizations, including 70% of the Fortune 100 and 15 million software developers, rely on our tools and guidance to be ambitious, move fast and do it securely.
