SONATYPE EDUCATION

Nexus Lifecycle Developer Class

The Nexus Lifecycle Developer Class, formerly Component Lifecycle Management (CLM) Developer Workshop, provides the knowledge and practical instruction to get developers started with Nexus Lifecycle. Take this half-day class to get up to speed quickly and understand how component management can be a natural part of your development process. See how to analyze component risk and fix vulnerabilities early in the development lifecycle to avoid costly rework.

Key Accomplishments:
» Understand how development benefits from Nexus Lifecycle
» Learn how to use Nexus Lifecycle in the Eclipse IDE
» Learn how to triage issues and prioritize remediation
» Excel at fixing flawed components across applications

Recommended for:
Ideal for any person involved in a development capacity such as application developers, architects, and development managers.
